

YOU HAVE YOUR NEW IPAD. WHAT DO YOU DO NOW?

Your iPad is a stand alone device that can be configured out of the box, so long as you have a Wi-fi connection in your house.

For those that don't, please contact the school so that we can assist with this process.

So what comes in the box?

Power
Adapter

iPad

usb cable

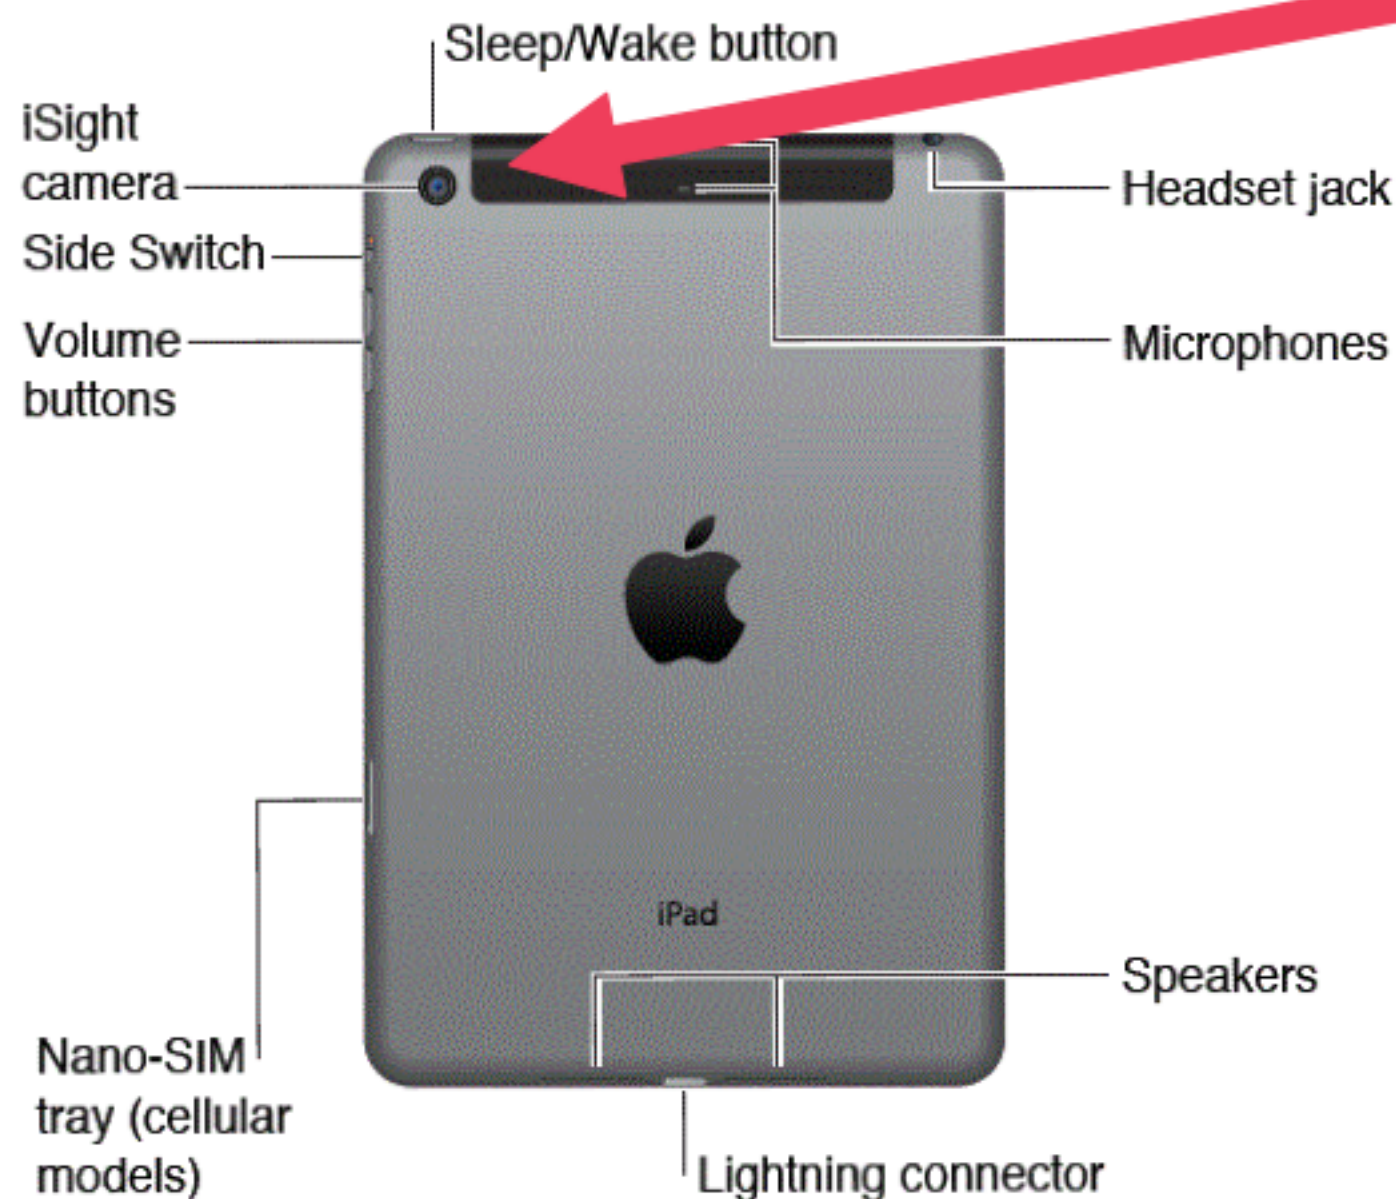

Documentation...
and stickers!

Handy tip... It may be worthwhile connecting to a power source to ensure there is enough power on the device to complete the process.

To configure your iPad, simply turn it on by pressing the power button on the top right hand corner of the unit.

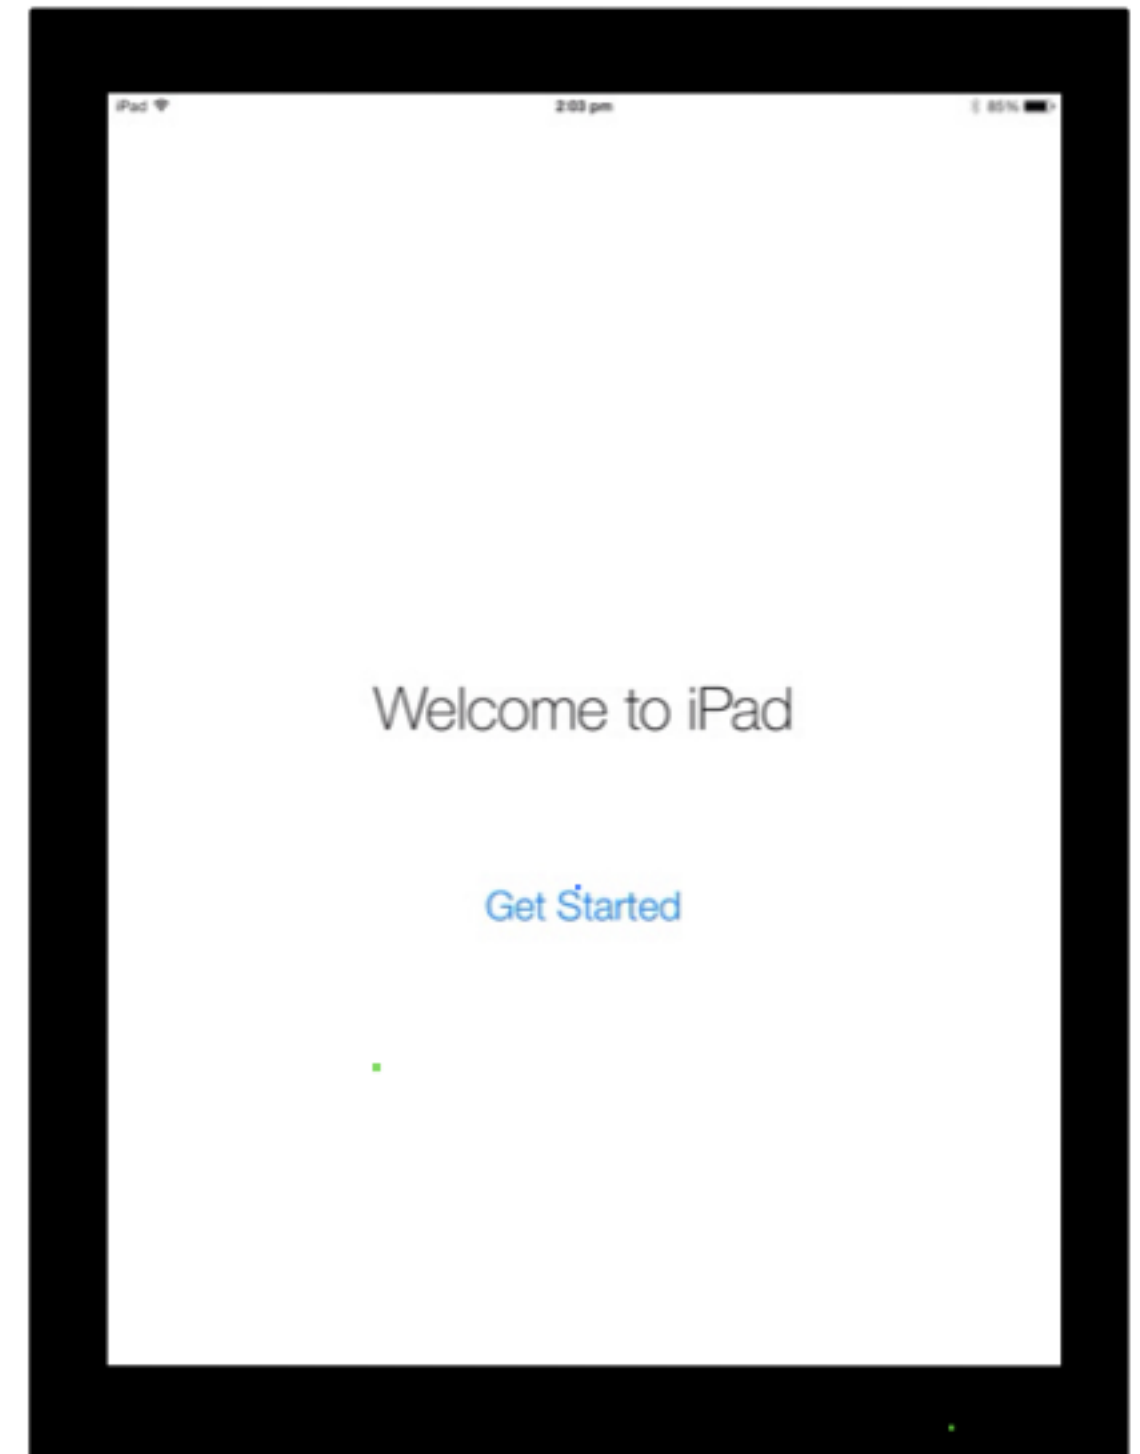

Once turned on, the iPad will begin a configuration sequence that will enable you to quickly and easily set it up.

Configuration Setup

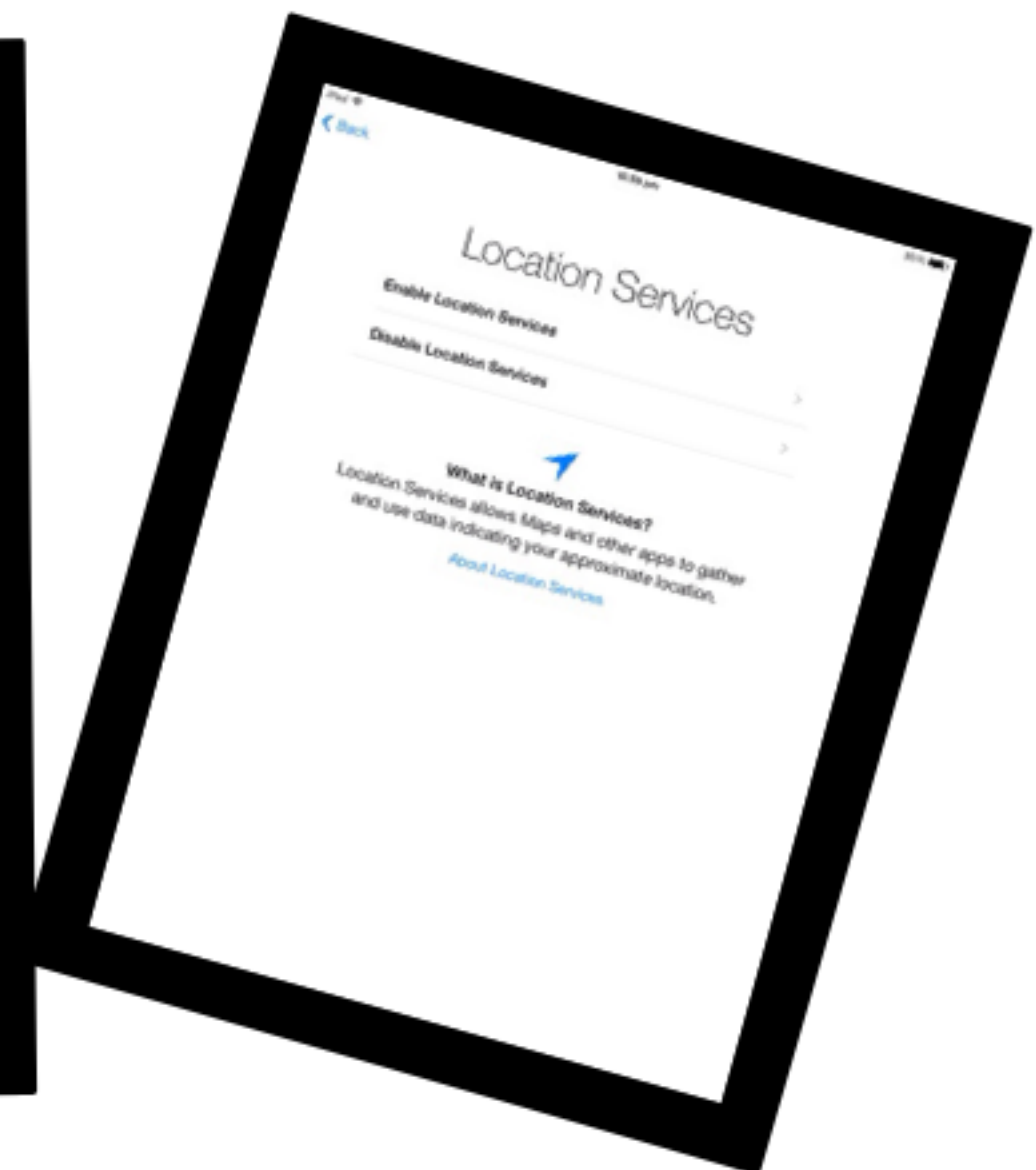

Work through the steps prompted on your iPad screen after turning it on.

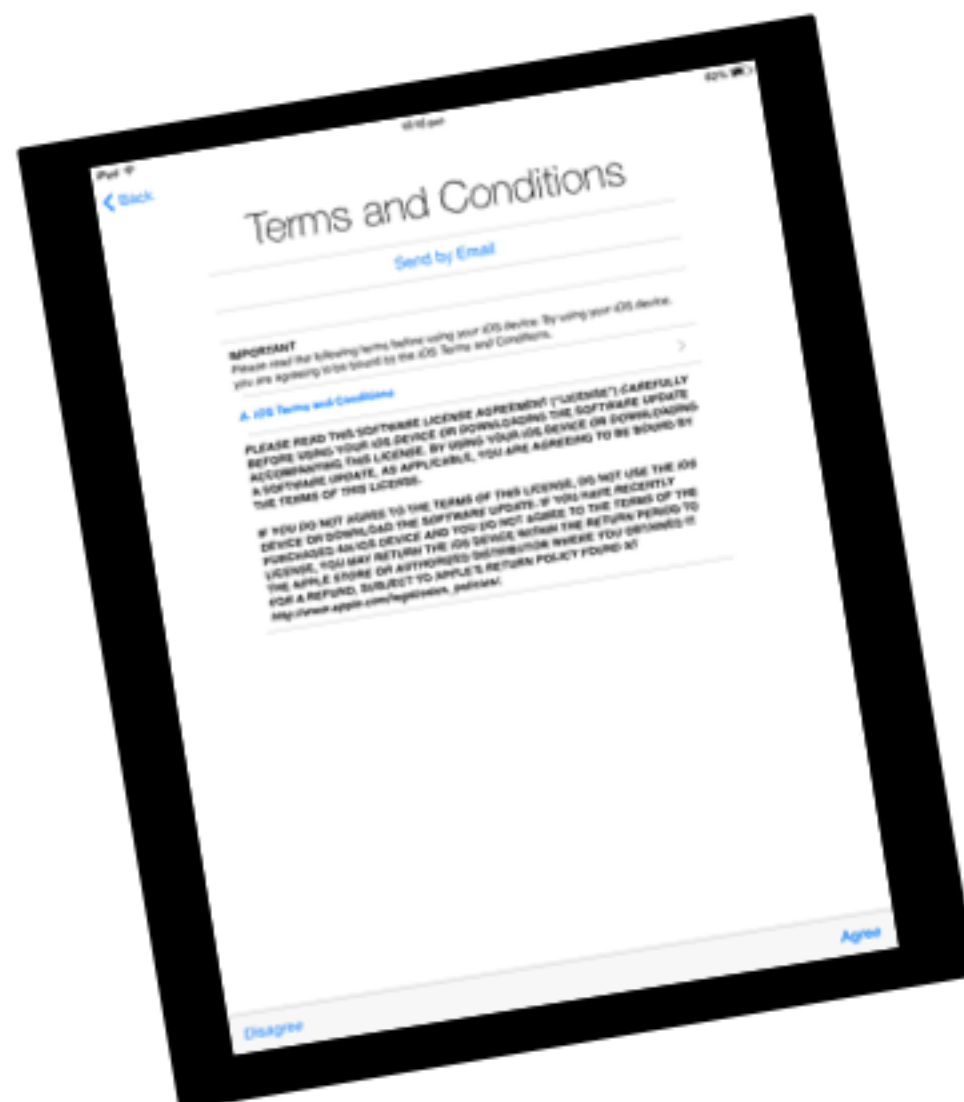

The procedures may include:

1. Select language (English)
2. Select country or Region (Australia)
3. Log on to WiFi Network (select network & enter password)
4. Location Services (Enable location services)

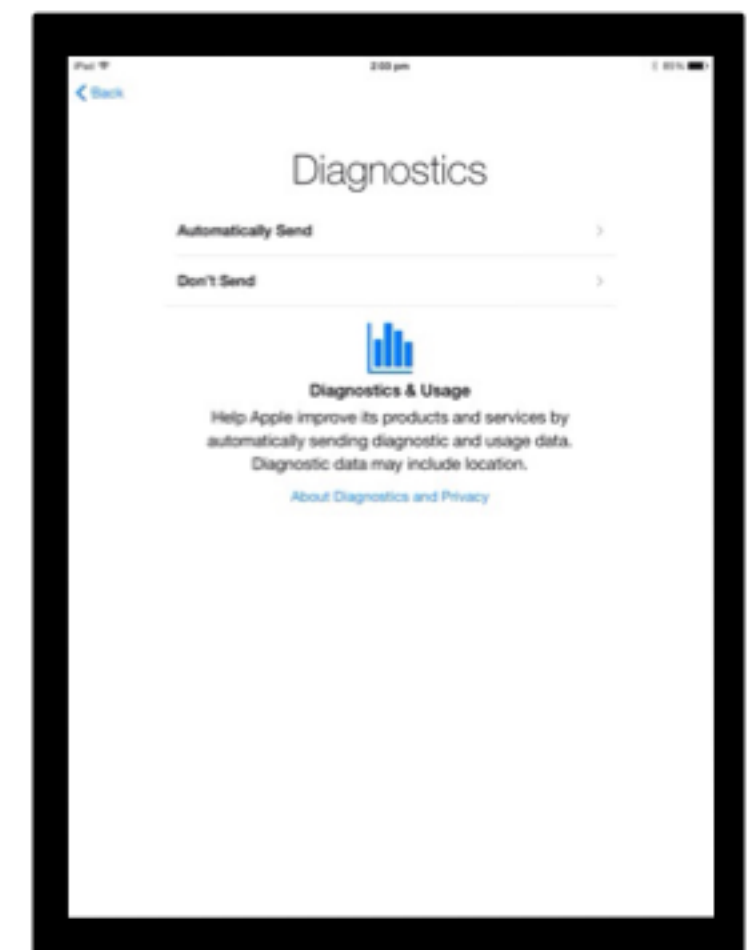

5. Set up as new iPad (Yes)
6. Sign in with an Apple ID
(this will be covered shortly)

7. Agree to the Apple
Terms & Conditions
8. Diagnostics
(Automatically send)

9. Start using iPad.

Woo Hoo!

If you have any questions regarding the setup of your iPad, please do not hesitate to contact the school.
